

EU SOLIDARITY WITH UKRAINE

#StandWithUkraine April 2025

The EU stands united in its unwavering support for Ukraine in the face of Russia's war of aggression and its illegal attempts to annex Ukrainian territory.

The EU continues to work relentlessly with international partners to make sure Ukraine receives the material support it needs and to hold Russia accountable for its actions.

The EU has also offered temporary protection to over four million people fleeing the war and is committed to continue providing strong political, financial, economic, humanitarian, military and diplomatic **support to Ukraine and its people for as long as it takes**.

in overall support to Ukraine and Ukrainians including **€1.5 billion** from the proceeds of Russian immobilised

almost

assets

The EU opened accession negotiations with Ukraine.

SUPPORT FOR UKRAINE'S ECONOMY

The EU has established a dedicated financing instrument of up to **€50 billion** to provide predictable and flexible support to Ukraine for the period 2024-2027 to support its recovery, reconstruction and modernisation, in line with its EU path. The Ukraine Facility is operational since 1 March 2024.

So far, a total amount of almost €20 billion of direct assistance to Ukraine has been provided. Additionally, as part of the Ukraine Investment Framework, the first €1.4 billion in grants and guarantee agreements were signed in 2024 at the Ukraine Recovery Conference in Berlin to support Ukraine's recovery and attract private sector investments; this will allow the beneficiary international financial institutions to provide support to financial intermediaries and final beneficiaries in Ukraine for an amount of €3.2 billion. The European Investment Bank Group and the European Commission signed a guarantee agreement at the EIB Group Forum that will allow the EIB to invest at least €2 billion in urgent recovery and reconstruction efforts in Ukraine.

Following up on the commitments by G7 leaders and based on a proposal by the Commission, the EU adopted a new financial assistance package to Ukraine. It consists of an exceptional macro-financial assistance (MFA) loan of up to approximately €18 billion and a loan cooperation mechanism that will support Ukraine in repaying loans provided by the EU and G7 partners for up to €45 billion. The loan cooperation mechanism is to be financed by extraordinary revenues stemming from immobilised Russian sovereign assets. €5 billion of this exceptional MFA has been disbursed so far.

In 2023, the EU budget enabled **€19.5 billion** in assistance to Ukraine, including an unprecedented support package of **€18 billion** in concessional loans.

This was on top of €11.6 billion provided in loans and grants in 2022. This support helped Ukraine keep paying wages and pensions, restore critical infrastructure that is destroyed by the war, maintain essential public services, such as hospitals, schools, and housing for relocated people, and ensure overall macroeconomic stability. As part of this assistance in 2023, the EU mobilised €1 billion for fast recovery, while guarantee agreements were signed with international financial institutions with potential capacity to unlock over €800 million in investments from the Ukrainian private sector for the recovery and reconstruction of the country's economy.

Part of the 2022 assistance, a €330 million emergency package focused on housing solutions for internally displaced persons. The EU has suspended import duties, quotas and trade defence measures on Ukrainian exports to the EU until 5 June 2025, with reinforced safeguard mechanism and an emergency brake for certain sectors. Ukraine also participates in a series of EU programmes such as the Connecting Europe Facility, the Single Market Programme and Horizon Europe.

€1.5 billion •• from the proceeds of

Russian immobilised assets –

€1.4 billion

for military support and

€100 million for the Ukraine Facility made available to Member States to cater for the needs of people fleeing the war

almost €75.8 billio

in financial and budget support, and humanitarian assistance

:

€12.2 billion from EU Member States, including

n EU Member in macro-financial assistance, tes, including budget support, humanitarian humanitarian and emergency support, assistance provided or guaranteed

€49.6

in military assistance

for Ukraine under the

European Peace Facility

and by Member States

individually

almost €63.6 billion

and emergency support
provided or guaranteed
by the EU budget

It includes

€6.1 billion under EPF to support the delivery of military equipment

€25.4 billion

of direct and indirect assistance (through IFIs) under the Ukraine Facility

€30.2 billion

in disbursed macro-financial assistance to help Ukraine address urgent needs on the ground including €18 billion in 2023

€1.1 billion

MFA+ interest rate subsidy

€2.8 billion

in loans and guarantees by the EIB, EBRD and other international financial institutions guaranteed by the EU, to help Ukraine meet its financing needs, support strategic state-owned companies, repair damaged infrastructure and ensure municipal service

€1.2 billion

in bilateral cooperation to increase Ukraine's resilience and support reforms and meet urgent needs on the ground

This includes:

almost 1.1 billion

in humanitarian assistance

€330 million

emergency package to support needs of internally displaced population, municipalities, health support, critical infrastructure rehabilitation, media and cyber-security

€315 million

for ongoing projects adjusted to meet urgent needs on the ground

€114 million

€100 million for rehabilitating schools, and €14 million for school buses as part of bilateral cooperation and humanitarian aid

€237 million

for crisis response measures

€31 million for civil society

€535 million

under Connecting Europe Facility for Solidarity Lanes

€48 million

for nuclear safety cooperation

THE EU-UKRAINE SOLIDARITY LANES

The Solidarity Lanes were set out in May 2022 to ensure that Ukraine can export grain and other agricultural products, as well as import the goods it needs, from humanitarian aid to animal feed and fertilisers. According to Ukrainian customs registers, since May 2022 the Solidarity Lanes have enabled Ukraine to export around **176 million tonnes of goods**, including around **84 million tonnes of grain**, **oilseeds and other related products**, and to import around **72 million tonnes of goods** it needs. The total value of trade via the Solidarity Lanes since May 2022 is around **€207 billion**, including around **€146 billion** imports to Ukraine.

Over €2 billion has been mobilised to scale up the Solidarity Lanes, including contributions by the Commission, the European Investment Bank, the European Bank for Reconstruction and Development, and the World Bank.

WELCOMING PEOPLE FLEEING THE WAR

The EU activated immediately the Temporary Protection Directive, giving people fleeing the war in Ukraine residency rights, access to the labour market, and means to access suitable accommodation, medical care, and education for children in the EU. EU countries have welcomed over four million people under this temporary protection scheme, which has been extended until March 2026.

The Commission has introduced maximum flexibility so that Member States can support people fleeing the war using unspent cohesion funds, thus making available **up to €17 billion**.

HUMANITARIAN AID AND CIVIL PROTECTION

The Commission has allocated **almost € 1.1 billion** for humanitarian aid programmes in Ukraine to be implemented by partners on the ground. In line with the priorities of the Ukrainian government, EU humanitarian assistance provides shelter, cash support, healthcare, food assistance, education, water and sanitation.

In addition, more than 154 000 tonnes of in-kind assistance have been delivered to Ukraine from EU Member States and partners via the EU Civil Protection Mechanism. This includes over €180 million via the rescEU emergency stockpiles in the form of shelter, energy, medical and specialised equipment for public health risks (such as chemical, biological, radiological and nuclear threats) and private donations under rescEU.

€380 million has been provided by the EU, its Member States and EFTA partners for humanitarian demining, including €80 million from the EU budget. The EU has also coordinated some 4 000 medical evacuations of Ukrainian patients to provide them with specialised healthcare in hospitals across Europe.

The EU Civil Protection Mechanism has offered over **8 900 power generators** to Ukraine. Further **2 500 generators** have been delivered via a repurposed cooperation programme. To reduce the strain on the energy system, the EU has also delivered **35 million LED light bulbs** for Ukraine.

SUPPORTING UKRAINE'S ENERGY SECURITY

At least €2 billion of support for energy security has already been provided to Ukraine since Russia's full-scale invasion, via the Ukraine Energy Support Fund and the Union Civil Protection Mechanism, among others. The EU is making available an additional amount of close to €160 million to support Ukraine's energy security for the winter.

Boost decentralised power production, including delivery of solar panels to hospitals

SUPPORT FOR UKRAINIAN SCHOOL CHILDREN

Since the start of the war, the EU has dedicated €100 million to support safe access to education for children in Ukraine. This support is used for school rehabilitation, establishment of learning spaces, mine risk awareness, and psychosocial assistance to children, teachers and caregivers. Furthermore, thanks to €14 million from the European Commission and an EU-wide solidarity campaign, more than 380 school buses have been donated. The Commission also delivered 1.5 million textbooks to students.

SUPPORT FOR RESILIENCE AND CIVIL SOCIETY

The EU has stepped up its support to strengthen Ukraine's cyber resilience. Equipment, software, and other related support in the value of **€10 million** has been delivered. Further **€19 million** has been provided to support a resilient digital transformation, and **€31 million** has been provided to support civil society under the Civil Society and the Human Rights and Democracy thematic programmes.

HOLDING RUSSIA

Russia must pay for its actions in Ukraine. That is why the EU has stepped up its support investigations and the collection of evidence.

The EU is supporting the International Criminal Court's capacities with €7.25 million. Moreover, Eurojust supports a Joint Investigation Team into international crimes committed in Ukraine, set up by Poland, Latvia, Estonia, Slovakia, Romania, Lithuania, and Ukraine, with the International Criminal Court and Europol as participants.

To help coordinate the collection of evidence, the International Centre for the Prosecution of the Crime of Aggression against Ukraine has been established and is also based at Eurojust. The Centre supports the coordination of investigations and the collection of evidence of war crimes committed against Ukraine.

Furthermore, about €210 billion in assets of the Russian Central Bank are immobilised in the EU. The EU took a decision to use of proceeds from immobilised Russian assets for Ukraine. Depending on interest rates, revenues generated from these immobilised assets are likely to yield around €2.5-3 billion a year for the benefit of Ukraine. On 26 July 2024, the EU made available to Ukraine the first payment of €1.5 billion generated from immobilised Russian assets, channelled through the European Peace Facility and to the Ukraine Facility, respectively to support Ukraine's military capabilities and reconstruction. More than €28 billion of private assets of listed persons and entities have been frozen so far.

In February 2025, the Commission, the EEAS, the Council of Europe, Ukraine and 37 States laid down the legal foundations for the **establishment of a Special Tribunal for the Crime of Aggression against Ukraine**. Once formed, the Tribunal will hold Russian political and military leaders accountable for the crime of aggression.

Additionally, the European Commission also adopted a Recommendation to the Council to participate in the formal negotiations to set up an **International Claims Commission for Ukraine**. The Claims Commission will be the body responsible to review, assess and decide eligible claims recorded in the Register of Damage and determine the amount of compensation due in each case. The establishment of the Claims Commission will be a crucial step towards the compensation of victims of the war.

SUPPORT FOR MILITARY EQUIPMENT AND TRAINING

The EU and its Member States have mobilised **€49.6 billion** in military support for Ukraine, including **€6.1 billion** under the European Peace Facility. The EU Military Assistance Mission for Ukraine is tackling training needs of the Ukrainian Armed Forces and has trained **73 000 Ukrainian soldiers**.
